

EBTV VIDEO PRODUCTION SERVICES

The Library offers video production services including pre-production planning, production, and post production of specified length and description to Township departments, agencies and boards, and to government and non-profit organizations. Production of EBTU programs will take priority over production for other groups.

As the municipal video production facility, EBTU provides production services for Township Departments, agencies and boards, and the East Brunswick Board of Education at no charge. Tax-exempt non-profit organizations and other government departments, agencies and boards will be charged the government/non-profit rate.

EBTU may also provide video production services at the full business rate for profit-making businesses.

Programs produced for a fee by EBTU are not automatically eligible for cablecast on EBTU. All productions must be accepted for cablecast by EBTU and must comply with existing policy.

**EBTV PRODUCTION RATE CARD
VIDEO PRODUCTION SERVICES**
